

Happy together

Patience

always pays if you add to it some action/

If you doubt you ain't gonna make it

a little motivation /

And when you are low and down in the dumps the family the family is always around to cheer you up /

hook

we 're happy when we get together

we 're happy when we get together

We 're happy when we get together

And we celebrate and we celebrate

and We celebrate

and we celebrate life /

verse 2

One nation under the same heartbeat /

Separation will only lead us to our defeat /

Gather around children

like swift bees to the hive /

the time has come

the time has come

for us to unify/

Bridge

Don't let your issues bring you down /

You're not alone

We ll sort it out /

We all know loneliness

is a cold comfort /

Together we go further /

(Everybody sing it loud)

hook

we 're happy when we get together

we 're happy when we get together

we 're happy when we get together

And we celebrate and we celebrate

and We celebrate

and we celebrate life /
