

Golden Cages - Faada Freddy

I'm not ashamed to walk down another way
Turn me away i don't care anyway
My golden cage I left it all behind
Whenever freedom calls it's too late to rewind

Fain, Would I love to take
Little bird don't wanna set free
You seem to be comfortable with these shackles you drag all the time
You will know my destination when you free up your mind
From the golden cages

Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages

I'm a rider of free tides
And I'm ready for the world
My roof is the sky and my country is the earth
You may say I lost my head
I may say you're already dead
You sold your soul for a little comfort

Fain, Would I love to take
Little bird don't wanna set free
You seem to be comfortable with these shackles you drag all the time
You will know my destination when you free up your mind
From the golden cages

Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages

You've got the right to vote
Still you're treated like a servant
There is no justice with a knee on your throat
Hiding behind and hoping someone remembers you
When you're just a number
Just another bar code
From the golden cages

Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
Golden Cages, We're all living' in golden cages
